### October 2009: Chemistry

Chemistry can be an intimidating subject for middle schoolers that can seem abstract and relegated to the laboratory. Learn how you can make chemistry relevant and approachable with the activities in the October issue of *Science Scope*.

The following is a collection of online resources we've compiled for **Chemistry**:

#### [In the News: Chemistry](#)

Too busy to sift through the news to find something you need? Click here to read current news stories, collected for you by NSTA staff members.

#### [On the Web: Chemistry](#)

With so much on the web, it's hard to know what's *really* useful. In this section, you'll find SciLinks (websites that have been reviewed by NSTA and your peers), links to web seminars, and various other opportunities related to this theme.

### [Articles from the \*Science Scope\* Archives: Chemistry](#)

Readers tell us again and again how timeless our journal articles are. So in this section, we've compiled theme-related articles from the *Science Scope* archives.

### [Books, Books, Books: Chemistry](#)

Tired of your textbook? There are lots of alternative resources available. Click here for a list of middle school-level books related to this theme.

### Coming Next Month... **Structure and Scale**

- Walking Out Graphs
- Macro Models
- Making a Relevant Time Scale
- Free Nanoscale Chapter Insert

If you would like to read another level of *Science Class*, or if your colleagues would like to subscribe, please go to <http://www.nsta.org/publications/enewsletters.aspx>.
